Pelco Recognized at Secutech Taipei 2017 with Camera Performance Award for Image Quality

Sarix™ Enhanced Range 5MP Camera Offers Advanced Features to Ensure Exceptional Image Quality in Challenging Lighting Conditions

Clovis, CA (April 28, 2017) - Pelco by Schneider Electric, a global leader in surveillance and security products and technologies, was honored with a Secutech Excellence Award at Secutech Taipei 2017. The company's Sarix™ Enhanced Range 5MP Cameras won the Camera Performance Award for Image Quality, besting a highly competitive field in a number of categories. The award was presented to Mr. Lu of Jiasin Technology Company, who represented Pelco by Schneider Electric at the awards ceremony, held on April 14, 2017.

"The goal of every manufacturer is to build a product that meets and exceeds performance requirements," said Diane Feliciano, VP, Global Marketing, Pelco by Schneider Electric. "Earning a Secutech Excellence Award underscores Pelco's continued efforts to deliver meaningful innovation that addresses the demand for advanced solutions with high performance in a variety of challenging conditions."

The compact, robust Sarix Enhanced Range IP cameras enable users to capture high-quality images for enhanced security, safety and operational strategies. Sarix cameras feature built-in video analytics, adaptive IR illumination and other advanced features to provide exceptional image quality in challenging lighting conditions, including highly contrasted lighting within the same scene. Designed with superior reliability and fault tolerance for mission-critical applications, these rugged fixed IP cameras ensure users always capture the video they need.

Sarix Enhanced cameras feature Pelco's SureVision™ 3.0 Technology to deliver the best possible image in difficult lighting conditions. Compatible with Pelco's VideoXpert VMS and any third-party system that supports Pelco's open API, SureVision technology can be remotely enabled and configured, and enhances surveillance flexibility, utility and performance.

In addition, Sarix Enhanced IP cameras offer optional IR illumination, which enables high-performance operation in complete darkness (0.0 lux) at distances up to 30 meters (100 ft.).

Since its debut in 1998, the annual Secutech show has established itself as a top platform for global industry providers in the safety and security market. The 2016 show attracted more than 24,000 trade visitors from 85 countries and regions.
